ROBAN GOLD ENTRAP

Non-toxic gel for use in traps, stations and glue boards

PelGar's Roban Gold Entrap are ready-to-use, non-toxic monitoring gels used for enticing rats and mice towards snap traps and rodent stations. Our range of flavors have been specially formulated to meet the unique behavioural characteristics of rats and avoid triggering their neophobia while remaining enticing to mice as well.

For Use With:

All snap traps, glue boards, multi-catch traps and placed stations

Availability:

Box of 4 (mixed or single flavor option)

The 35g tubes comes with it's own plunger and cap but can be used in all good gel guns for ease of application.

Available flavors:

VANILLA

APPLE

AMARETTO

PEANUT BUTTER

PelGar International
