

SUPPORT RELIEF EFFORTS

for Communities Impacted by California Wildfires

FAMILY FOCUSED TREATMENT ASSOCIATION

As California wildfires have continued to spread, residents in Los Angeles and other surrounding cities are joining together to ensure that their communities feel safe, supported, and have the essentials they need during this time. Public and Private human service organizations as well as children and families that they serve have been affected.

Charities You Can Support

[The California Wildfire Foundation](#)
[California Community Foundation](#)
[Global Giving California Wildfire Relief](#)

Our California FFTA Member Organizations may either be facing direct challenges and/or working to assist those impacted. These organizations, collectively, serve hundreds of children and families each day. Please visit their websites, and support their essential work, both now and in the future, as they help their communities heal, recover, and rebuild.
